Dear Valued Customer,

NEW SECURITY MEASURES FOR CORPORATE INTERNET BANKING SERVICES
(“CIBS”)

To enhance your online security, two security measures will be in place for our Corporate Internet Banking Services (“CIBS”):

1. If you have previously set your daily maximum transfer limit to non-registered beneficiaries (the “NRB limit”) to an amount above HKD20,000,000, effective 21 October 2013, your NRB limit will be reset to HKD20,000,000.
2. If you have already set your NRB limit before 1 January 2013, but have not successfully performed such transaction through CIBS for one year, your NRB limit will be reset to zero in January 2014. On the other hand, if you have set your NRB limit on or after 1 January 2013, but have not successfully performed such transaction through CIBS for one year, your NRB limit will be reset to zero on the date one year after you set your NRB limit.

For enquiry, please call our customer service hotline at 3118 8788 or 3118 8807.

Yours faithfully,
China Merchants Bank
